

To Whom it my concern,

I am writing you to let you know how much I enjoy my XM satellite radio. I chose the system because I dont like FM radio because they have to many commercials and play the same thing over and over. I support XM radio and will remain a loyal customer. The instant weather and traffic is very helpful to me when I am traveling. I dont have to drive into something before I know whats going on.

I can tune to the instant weather and traffic channel of the city I am traveling to and instantly be notified of the weather and traffic situation there. Again, that is why I am a loyal XM customer, because thats what I want out of radio.

I respectfully ask the FCC to reject the NAB's petition 04-160 on many others behalf, including myself. XM Radio give me exactly what I want and when I want it. Thats the type of programming I deserve and demand. And guess what? XM Satellite Radio Gives It To Me!!
